

TAURUS

Agricultural Fertilizers · Organic Fertilizers

Pack size: 5-10 l · Form: liquid

Target: crops, fruit trees, vegetables

TAURUS is a high-quality natural fertilizer obtained from traditional animal breeding bedding. Thanks to the appropriate production technology, it is devoid of weed seeds, pathogenic pathogens and undesirable fungi and bacteria. It is intended for fertilizing all garden plants, in particular vegetables, strawberries, raspberries, grapes, fruit shrubs and trees, lawns and flowering plants. It contains a complete set of elements necessary for the proper growth and development of plants, which positively affects their quality and yield. It does not cause the risk of over-fertilization.

Macronutrients:

- nitrogen (N): over 3.0%
- phosphorus (P₂O₅): over 2.0%
- potassium (K₂O): above 3.3%
- magnesium (MgO): over 0.9%
- calcium (CaO): above 1.9%

Organic matter in dry matter, at least 70%. Solid, granular form.
