

VERNON 70 WP

Crop Protection · Insecticides

Pack size: 1 liter · Form: liquid

Target: jassids, aphids, thrips, whitefly

Ingredients

- Active Ingredient: Imidacloprid 70% w/w
- Other ingredients: up to 100% w/w

VERNON 70 WP is a systemic insecticide with contact and ingestion action, recommended for the control of various insects in fruit trees, and other crops.

It is safe for the plant and has better spread faster absorption of active ingredient by the plants resulting in better efficacy.

Mode of Action:

Antagonist to the nicotinic acetyl choline receptor in the central nervous system, Imidacloprid disturbs the proper signal transmission system leading to excitation of nerve cell and consequently a disorder of the nervous system leading finally to the death of the treated insect.

Target Pests: Jassids, Aphids, Thrips, Whitefly.

Target Crops: Wheat, cotton, maize, vegetables.

Re-entry Period: DO NOT allow re-entry into treated areas for 48 hours after treatment.

Direction of Use:

Start spraying in the early stage of pest occurrence, pay attention to spray evenly.

Do not apply VERNON on a windy day or if it is expected to rain within 1 hour.
